## NEW PRODUCT GUIDE COVERS COMPLETE BAR'S LEAKS® AND RISLONE® LINES

**Holly, Mich. (June 13, 2007)** — The new 2007 Bar's Leaks® and Rislone® Product Guide provides detailed information about both lines of premium automotive chemicals in a convenient, pocket-size brochure.

The Rislone line of additives is featured on the front. Information on these Ring Seal®, stabilizer, and oil and engine treatment products includes photos, part numbers, descriptions and applications. The Bar's Leaks line of stop-leak products is highlighted on the reverse side. The Bar's Leaks line includes radiator and cooling system stop leaks, block seal repairs, two-part formulas, specialty products, radiator flushes, and stop leak solutions for vehicles' rear main seal, engine, transmission and steering systems.

"We have created a simple, concise piece that gives consumers the basic information they need to go to our customers' stores to find chemical solutions to their vehicle performance problems," explains Clay Parks, vice president of marketing and development for Bar's Products, manufacturer of Bar's Leaks and Rislone.

The product guide measures about 8.5 x 3.33 inches and opens up to 11 x 17 inches. A .pdf of the product guide is available on the Bar's Products Web site at [www.barsproducts.com](http://www.barsproducts.com). Copies of the product guide are also distributed through stores that carry the products, manufacturers' representatives, and by the many racing teams sponsored by Bar's Products.

For additional information, visit the Web site, e-mail [customersupport@barsproducts.com](mailto:customersupport@barsproducts.com) or call (800) 521-7475.

Bar's Products offers a full line of vehicle chemicals, including Bar's Leaks, the world's most trusted stop-leak brand since 1947, and Rislone, America's best-selling engine treatment brand for more than 80 years. Based in Holly, Mich., Bar's Products is an ISO 9001:2000 certified company.
