Sheppard Hopes To Put Rough Weekend Behind Him Friday night at the Brewerton Speedway, Super Matt Sheppard opened his second full weekend in his #9s, Jeff Brownell Sr. owned modified. Coming home 5th in the main event was all he had for the full field of modifieds. His Saturday night stop the Canandaigua Speedway was cancelled due to rain. Having the night off the team was looking forward to their Sunday night stop at Cayuga County Fair Speedway only to have a disappointing 13th place finish. The week ahead is a big one with a trip to the Virginia Motor Speedway along with a second Advance Auto Parts Dirtcar Series event later in the week and that is the main focus as the car heads back to the shop.

Weekend Summary:

Friday Night- - Matt started his night finishing 5th in the second heat, starting him 14th in the feature event. Coming through traffic using both the middle and the high side, he worked his way to a 5th place finish at the completion of the 35 lap feature.

Saturday Night- -rain-out

Sunday Night- Finishing 5th in the first heat of the night put Sheppard (the point leader going into the night) in the 18th starting position at the start of the 35 lap feature. Sheppard spun while running high in turn one, sending him to the rear. He worked his way to a 13th place finish for the evening.
