## 2008 PRODUCT GUIDE COVERS BAR'S LEAKS® AND RISLONE® LINES

**Holly, Mich. (Jan. 28, 2008)** — The *2008 Bar's Leaks® and Rislone® Product Guide* provides detailed information about both lines of premium automotive chemicals in a convenient, pocket-size brochure.

The product guide measures about 8.5 x 3.33 inches when folded, and opens completely to 11 x 17 inches. Every Bar's Leaks and Rislone product is featured, including a photo, part number, description and application. Interspersed with the product information are photos of some of the many race cars the brands sponsor.

The Rislone line includes Ring Seal® products, stabilizers, oil and engine treatments, and two-stroke engine oils. The Bar's Leaks line includes radiator and cooling system stop leaks, block seal repairs, two-part repair formulas, specialty products, radiator flushes, and stop leak solutions for vehicles' rear main seal, engine, transmission and steering systems.

"This product guide is simple and concise, providing consumers with the basic information they need in order to visit our customers' stores and find chemical solutions to their vehicle performance problems," explains Clay Parks, vice president of development for Bar's Products, manufacturer of Bar's Leaks and Rislone.

A .pdf of the product guide is available on the Bar's Products Web site at [www.barsproducts.com](http://www.barsproducts.com). Copies of the product guide are also distributed through stores that carry the products, manufacturers' representatives, and by the many racing teams sponsored by Bar's Products.

For additional information, visit the Web site, e-mail [customersupport@barsproducts.com](mailto:customersupport@barsproducts.com) or call (800) 521-7475.

Bar's Products offers a full line of vehicle chemicals, including Bar's Leaks, the world's most trusted stop-leak brand since 1947, and Rislone, America's best-selling engine treatment brand for more than 80 years. Based in Holly, Mich., Bar's Products is an ISO 9001:2000 certified company.
