## **Carly Jo Ellingson Race Report – June 2009**

I won a few races (I don't remember the exact dates...) at Douglas Motorsports Park, though racing at Oahe Speedway could have gone better. I believe we went to Pierre the 20th and 21st, where I lost in second round both days. I took 1st place one out of the two days, almost every weekend in Douglas, Wyoming...pretty darn good I would say! But thats just me... lol

Last weekend, on the 28th, was when the Jr. Challenge was held, in Douglas. Unfortunately, I only took the 2nd place plaque home. But something else, probably more memorable happened. During our third time trial of the day, I was racing Cynthia Gartener, a friend of mine through racing. After the finish line, she lost control of her car. Because of the short turn off there, we all have to get on our brakes as soon as we cross the finish line, and I assume she got on hers too hard. In the end, she rolled the car almost 5 times and bent her whole back end to the left. In the process of the crash, she also lost her front right tire. All I can say is that it was lucky I was racing her, because I drive the only car that is drastically faster than her (8.90s vs 7.90s). If she had been facing a slower car, or even someone who had been running about the same speed as her, she would have crashed into them (since she ended up in the lane opposite she started in), and caused much more damage. She is ok (thank God), and most definitely left with an exciting story to tell!

Sincerely,

Carly Jo Ellingson
