

## **Jonathan Johnson Race Report – March 2009**

Well I have talked with many of you about the changes here at JKJ Motorsports for 2009. Katie and I elected to sell the modified and buy a 600 Non-Wing Mini Sprint as she and I continue to get settled after getting married and buying a house over the past year and a half. She has continued to support my racing efforts and is behind me 100% in the new endeavor.

One thing we are excited about is we have added a new partner to our program in Keizer Wheels, so we are glad to have you aboard. Also, we have looked long and hard to find a better way to keep in contact with you all. We are using a service called Constant Contact to do our email updates through. This will allow for a really cool email either monthly or bi-monthly that will have a cool background and everyone's logos on it. This allows Katie to have full control over the information and graphics. We are always adding to the send list, therefore it becomes a unique marketing tool for all parties involved. I will send a test page within the coming weeks.

In addition, I have worked with Bar's Products and have some upcoming store appearances in the next couple of months, so any pamphlets or information for interested persons is always good to have on hand if you can send some my way.

As most all of you know, I am one of the first to offer to test new products or try new things. If you have a new product that you want tested, call me. I will be glad to go make some laps and give some feedback. Remember, my father owns one of the fastest 1/4 mile tracks in Southeast Texas.

Last but not least, I need Butler Built and Factor 1 Racing logos for the website and Constant Contact email. Please, please get these to me!!!

I look forward to a great 2009 and I am glad you are all along for the ride!! See you at the races!
