

Jonathan Johnson Race Report – May 2009

We finally got a race in the other night for only the 2nd time this year. We tried to make the best of it by preparing early. And as it did the first outing, it made no difference, lol. In the first corner of hot laps we snapped the chain and rolled the bird cage, brake assembly and everything around the rear end. With 33 cars making the trip to Goden Triangle Raceway Park, this made for an interesting night as we missed our heat race and had to start 14th in the B-Main.

Not to be deterred, we raced to 2nd in the B-Main. That put us starting outside row 10, or 20th in the A-Main. Unfortunately the feature was filled with cautions and did not provide too many green flag runs to move up and we ended to night in 16th position. I need to thank Ken and Emmett Pearson for all their help. They have been really influential in the changes we made to the car and the progress made between the first and second event.
