

Ladd Race Report – June 2009

A little, this has been a busy week. Casey graduated from 8th grade last night and we have a bunch of other things going on. We got Casey's car back from the painter Friday the 22nd and I just got all of the lettering today from the new graphics guy so we should have it all lettered tonight. As soon as the rain clears we will get the pictures for you. The paint looks great; I will send some pictures without the lettering so you can see how nice it turned out.

Now for the racing part, Jamie had a good month in May, she has made it a least a few rounds every race and won in Madras on the 23rd and had a runner up finish Memorial Day in a 36 car field. Combine that with her win in April and she is in a 3 way tie for the points lead at Woodburn. She is also in a tie for the points lead at Madras; let's hope we can keep that up. As far as Casey, we are just getting used to his new car, he won a second chance race last month at Woodburn and has started going deep into eliminations. He should start bringing home some trophies soon. As a team we won best appearing crew for the all jr race at Woodburn, Memorial day. A lot of people want one of our team shirts that you sent us. It was a little funny when I would run Jamie's car I was wearing the Bar's Leaks shirt, then when Casey was up I would run to the golf cart and put on the Rislone shirt. I think people thought I was nuts, but we were having fun.
