

It was a great weekend and a very fun weekend for all of us.

Jeff went to Martin, MI for the IHRA Summit Pro-Am point's event. He won on Sunday in Quick Rod. Then on Monday he won here at the Mid Michigan Motorplex in Super Pro.

Lane won on Saturday night/Sunday morning at 12:10 a.m. and then won again on Monday. On Monday we were not driving our car. On Sunday during racing it slowed way down. Our engine builder was there and took a look at it and tried some of the simpler fixes and we tested it, but nothing seemed to help. So he took our motor home with him to tear it apart in his shop. Hopefully it is not too bad of news. So Craig Blossom (Engine builder) let Lane use one of his cars for the day. It was so nice of him and then when Lane won in the car; it was the topping on the cake!! Lane used Craig's granddaughter's car. It was yellow with flowers, teddy bears and peace signs on it. Girl power all the way!! Lane was getting the berries from other kids about the car and then one of the mom's told Lane it does not matter what you race, you are here to win!! That he did!! I was very proud of him to pull it off in a car he had never driven before.

Libby had 2 semi-finals and a runner-up this weekend. She had a red light in her final. She was really bummed, but we explained that it happens and what to do to correct it. It was weird, but there were a lot of red lights this weekend for the kids. Libby also had her first time running in the dark on Saturday night. She really liked that!!
