

Mark Zemnickas - Putnam Race Results
June 2nd, 2009

Mount Meridian, Indiana (May 16-17 2009) After spending the last 10 seasons competing in 125cc Shifter go-karts Mark Zemnickas and Z-Time Racing switched gears and joined the NASA (National Auto Sport Association) Spec Ford Focus Series in 2009 and will campaign a Rislone Engine Treatment, IMNLink.com Ford Focus SVT.

Our first race weekend was at Putnam Park in Mount Meridian Indiana and our results could not have been any better for our first weekend out. The weather was a lot to be desired when we arrived at the track and was mostly cold and rainy on Saturday with a lot of standing water. With this being our first time on a race track with the new car we really didn't know what to expect in the rain and we somehow managed to qualify on Pole for Race #1. Later that afternoon we went on to win our first race in our new series. Race #2 on Sunday the sun decided to come out and dry the track off and we were able to qualify second and we went on to finish second in our race.

This weekend produced our first win in the Spec Focus Series and we can't wait for our next race at Grattan Raceway Park in Belding Michigan June 5th and 6th.
