

## FREQUENTLY ASKED QUESTIONS

### **BAR'S LEAKS SMOKE AWAY WITH STOP LEAK**

### **P/N 1026**

*How does it work?*

Smoking is usually caused by gaps in internal engine parts resulting from excess wear. Smoke Away with Stop Leak contains viscosity improvers that thicken the oil film filling these gaps. Smoke Away cushions and coats engine parts helping reduce wear and quiet noisy lifters

*Will Bar's Leaks Smoke Away with Stop Leak clog my oil filter?*

No. Unlike our cooling system product, Bar's Leaks Smoke Away has no particles to plug the leak, it works chemically to stop leaks in gaskets and seals.

*Will Bar's Leaks Smoke Away w/ Stop Leak work in synthetic oil?*

Yes, Bar's Leaks Smoke Away is compatible with all petroleum based oils, including synthetics.

*If first application does not completely stop leak, may I add another bottle?*

Yes, you can install a second application for hard to stop leaks. If your leak still persists after a second application, then mechanical attention may be required.

*If I install more than the required amount, will it work faster or better?*

No, we have formulated our product to work best at the suggested dosage amount.

*How long does it take to start working?*

Bar's Leaks Smoke Away starts working the minute you install and start driving the vehicle. You will usually see results in about 100 miles or two (2) days of driving.

*What are the dosage recommendations?*

1 bottle treats 4 to 6 quarts of oil.
